# Introduction

As part of the State of the Basin program, the Columbia Basin Rural Development Institute (RDI) at Selkirk College has developed Community Profiles for municipalities and electoral areas within the Columbia Basin-Boundary region. The Columbia Basin-Boundary region is located in the southeast corner of British Columbia (BC) and includes the entire Regional Districts of East Kootenay (RDEK), Central Kootenay (RDCK), Kootenay Boundary (RDKB), as well as Golden, Revelstoke, Valemount, Columbia Shuswap Regional District (CSRD) Areas A and B, and a portion of Regional District of Fraser-Fort George (RDFFG) Area H (see map, below). This report covers the Village of Montrose.

The primary goal of the State of the Basin reporting is to provide easily accessible and relevant data to help inform decisions that lead to greater community and regional well-being. State of the Basin research draws on available data from a variety of sources including federal, provincial, and local governments, crown corporations, and non-profit initiatives. Both open access sources and custom data requests are used.

Community profiles are intended to share area-specific data with local governments and other organizations to help build a better understanding of local conditions and trends and assist in making evidence-based planning and management decisions. These reports may also be useful for supporting communications with current residents, prospective residents, and for business and workforce attraction.

Indicators in this report are quantitative, and while quantitative indicators help establish foundational knowledge of well-being, they only tell part of the story. Qualitative information, including the RDI’s subjective well-being research, can further contribute to the understanding of our communities and region. In order to describe geographic trends in indicators, this report compares community data with regional, provincial, and national data where appropriate. The geographic divisions used vary by indicator and depend on the topic being measured and the available data. **For additional community and regional comparisons for indicators in this report, please see the [State of the Basin website](#).** Further community profiles (including electoral area profiles) can be found [here](#).

Statistics Canada also offers a suite of data sets through their [Census Program](#), where it is possible to search by place name and topic, and [Census Mapper](#) provides these data in mapped format. Interior Health has also developed [Community Health Profiles](#) for municipalities across BC. The [Columbia Basin Climate Source](#) website has area-specific climate data, including projections. [BC Stats](#) and [Local Government Statistics](#) are other online sources of community- and area-specific statistics.

If you have questions or feedback on this Community Profile, please [contact the RDI](#).

## Location

Located above the Columbia River east of Trail, the Village of Montrose<sup>1</sup> was incorporated June 22, 1956. Its residents are primarily made up of workers and retirees of nearby Teck, the Kootenay Boundary Regional Hospital, Fortis BC, Wal-Mart and other local businesses. Seven different species of hummingbirds have been recorded in the area and Montrose is known for the excellent quality of its drinking water, winning silver medals in 2008 and 2009 Berkeley Springs International Water Tasting Competition. See [www.montrose.ca](http://www.montrose.ca) for more information.

| Montrose                     |  |
|------------------------------|--|
| <b>Regional District</b>     | Kootenay Boundary                                  |
| <b>Coordinates</b>           | Longitude is 117°35'39"W<br>Latitude is 49°04'42"N |
| <b>Elevation</b>             | 580 meters   |
| <b>Area (km<sup>2</sup>)</b> | 1.5 km <sup>2</sup>                                |

## Demographics

Population characteristics help planners and local decision makers to evaluate current and future community needs, particularly with respect to service delivery and potential impacts to the local economy.<sup>i,ii,iii</sup>

### TOTAL POPULATION

| Population (Census) <sup>3,4</sup>            | 2006      | 2011      | 2016      | Percent change<br>2006 to 2016 |
|---|-----------|-----------|-----------|--------------------------------|
| <b>Montrose</b>                               | 1,012     | 1,030     | 996       | -1.6%                          |
| <b>Regional District of Kootenay Boundary</b> | 30,742    | 31,138    | 31,447    | 2.3%                           |
| <b>British Columbia</b>                       | 4,113,487 | 4,400,057 | 4,648,055 | 13.0%                          |

| Population Estimate <sup>5</sup> | 2018  | 2019  | 2020  |
|----------------------------------|-------|-------|-------|
| <b>Montrose</b>                  | 1,050 | 1,054 | 1,049 |

<sup>i</sup> Please see **Appendix A-1** for an important note regarding the use of random rounding in population and other demographic data sourced from Statistics Canada.

<sup>ii</sup> The RDI recognizes that gender identity is not a binary of male and female and that some transgender, non-binary, two spirit, and intersex populations may not be correctly represented by the data in this report. Databases that this report draws from, such as the 2016 census, limit responses to male or female. Canada's 2021 census will include more nuanced questions on sex, sexual orientation, and gender identity to better represent LGBTQ2IA+ populations.

<sup>iii</sup> Population estimates are usually higher than Census counts for the same year. This is due to adjustments made to reflect those who were missed in the Census. In 2016 in BC, the population estimate was 4.1% higher than the Census count.<sup>2</sup>

## POPULATION DENSITY

|                             | Montrose (2016) <sup>3</sup> | Kootenay Boundary (2016) <sup>3</sup> | British Columbia (2016) <sup>3</sup> |
|-----------------------------|------------------------------|---------------------------------------|--------------------------------------|
| People per square-kilometer | 681.4                        | 3.9                                   | 5.0                                  |

## POPULATION PYRAMID

Population pyramids illustrate the age and sex structure of a population. As of 2016, 24% of the population in Montrose was 65 or above, and 19% of the population was 19 or younger.<sup>3</sup>

## LABOUR FORCE POPULATION PYRAMID

The chart below shows the age range distribution of children, emerging labour force, primary labour force, and seniors within the Montrose population.<sup>3</sup>

---

## POPULATION PROJECTIONS

Population projections are available for each Local Health Area within the Columbia Basin-Boundary.<sup>6</sup> Montrose is covered by the Trail Local Health Area.<sup>iv</sup>

|  | Trail Local Health Area | British Columbia |
|--|-------------------------|------------------|
| <b>Percent change in population projected 2020 to 2040</b> | -2%                     | 23%              |

## AVERAGE AGE

|  | Montrose (2016) <sup>3</sup> |      |        | British Columbia (2016) <sup>3</sup> |           |           |
|--|------------------------------|------|--------|--------------------------------------|-----------|-----------|
|  | Total                        | Male | Female | Total                                | Male      | Female    |
| <b>Total population</b>                | 995                          | 510  | 490    | 4,648,055                            | 2,278,245 | 2,369,815 |
| <b>Average age of population (yrs)</b> | 46                           | 45.8 | 46.2   | 42.3                                 | 41.5      | 43.1      |

---

<sup>iv</sup> The Trail Local Health Area covers Fruitvale, Montrose, Rossland, Trail, Warfield, and RDKB-A and B.

# Families & Households

Family characteristics such as size and composition of families can help inform social, economic, health, and education programming, as well as planning and development around infrastructure needs.<sup>3</sup>

## FAMILY CHARACTERISTICS

|   | Montrose<br>(2016) | Kootenay<br>Boundary (2016) | British Columbia<br>(2016) |
|---|--------------------|-----------------------------|----------------------------|
| <b>Average household size</b>   | 2.3                | 2.1                         | 2.4                        |
| <b>Total number of families in private households</b>                                   | 325                | 9,445                       | 1,311,345                  |
| <b>Total couple families</b>  | 285                | 8,185                       | 1,113,405                  |
| <b>Couples without children</b>   | 175                | 5,295                       | 577,790                    |
| <b>Couples with children</b>  | 110                | 2,890                       | 535,610                    |
| <b>One child</b>  | 45                 | 1,175                       | 221,065                    |
| <b>Two children</b>   | 45                 | 1,255                       | 230,705                    |
| <b>Three or more children</b>   | 20                 | 460                         | 83,840                     |
| <b>Total lone-parent families</b>   | 40                 | 1,265                       | 197,940                    |
| <b>Female parent</b>  | 20                 | 920                         | 155,670                    |
| <b>Male parent</b>  | 20                 | 345                         | 42,265                     |
| <b>One child</b>  | 25                 | 800                         | 125,890                    |
| <b>Two children</b>   | 10                 | 365                         | 54,900                     |
| <b>Three or more children</b>   | 5                  | 100                         | 17,145                     |
| <b>Total persons not in census families<sup>v</sup> in private households (singles)</b> | 125                | 5,975                       | 882,895                    |

<sup>v</sup> A "census family" is a married or common law couple (regardless of sex) and the children of either/both spouse (if any), or a lone parent with a minimum of one child living in the same household. All members of a census family must live in the same dwelling to be considered a census family. Children are not limited by age so long as they are living in the same household and do not themselves have a spouse, common-law partner, or child in the same dwelling.<sup>7</sup>

## MARITAL STATUS

The chart below shows males and females who are married, living common law, single, separated, divorced or widowed as a percent of the total Montrose population aged 15 years and older.<sup>3</sup>

## Mobility

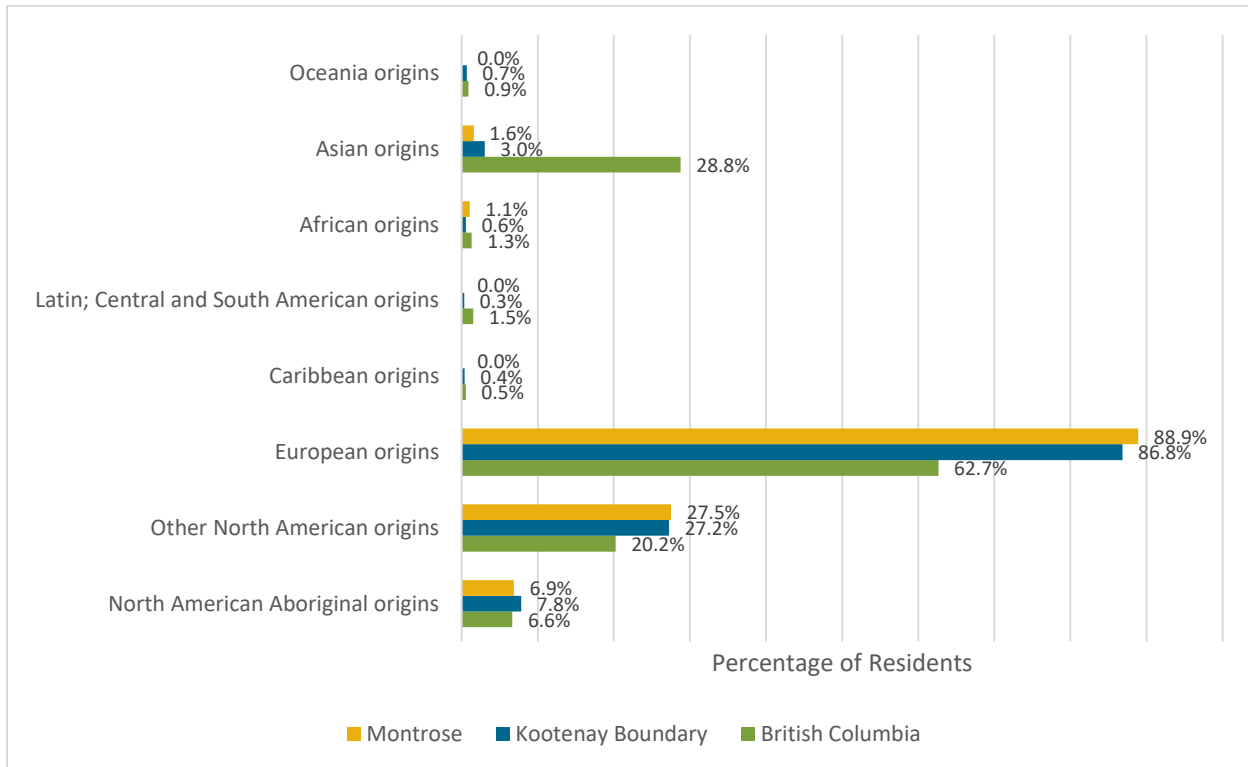

This indicator measures the movement of people into and out of the community with respect to where they lived five years prior. Non-movers are those who have not moved. Non-migrants are people who have moved within the same region. Migrants include those who moved within the province (intra-provincial), those who moved to or from another province (inter-provincial), and those who moved to Canada from another country (external migrants).<sup>3</sup>

|                                  | Montrose (2016) | Kootenay Boundary (2016) | British Columbia (2016) |
|----------------------------------|-----------------|--------------------------|-------------------------|
| <b>Non-movers</b>                | 75.3%           | 66.7%                    | 57.4%                   |
| <b>Movers non-migrants</b>       | 2.2%            | 13.5%                    | 21.7%                   |
| <b>Intra-provincial migrants</b> | 17.7%           | 13.6%                    | 11.6%                   |
| <b>Inter-provincial migrants</b> | 5.9%            | 4.8%                     | 3.9%                    |
| <b>External migrants</b>         | 0.0%            | 1.3%                     | 5.4%                    |

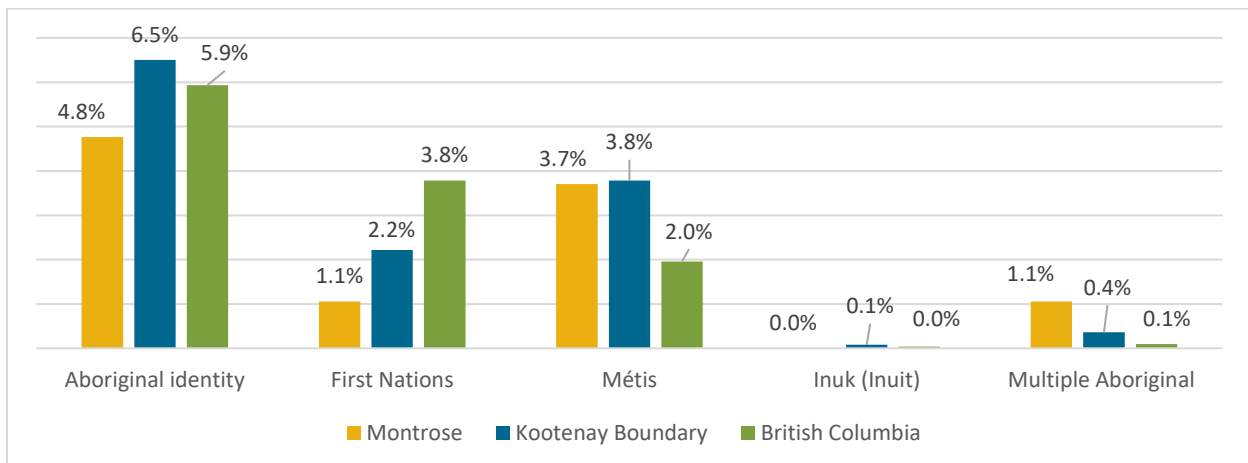

# Cultural Characteristics

Cultural characteristics can enhance our understanding of a community and provide important context for other indicators. Language, ethnic origin, and Aboriginal identity<sup>vi</sup> are a few indicators that provide insight into a region’s cultural diversity.<sup>3</sup>

## ETHNIC ORIGIN

## ABORIGINAL IDENTITY

<sup>vi</sup> Calculations performed using the published estimated total population. The sum of the ethnic groups is greater than the total because a person may report more than one ethnic origin in the census. For additional information, refer to [Ethnic Origin Reference Guide, Census of Population, 2016](#)

## LANGUAGE SPOKEN MOST OFTEN AT HOME

|                               | Montrose (2016) | Kootenay Boundary (2016) | British Columbia (2016) |
|-------------------------------|-----------------|--------------------------|-------------------------|
| <b>English</b>                | 98.5%           | 98.1%                    | 83.2%                   |
| <b>French</b>                 | 0.0%            | 0.4%                     | 0.4%                    |
| <b>Non-official languages</b> | 1.0%            | 1.5%                     | 16.4%                   |

## Infrastructure

Infrastructure is the physical foundation for community well-being. Water, sewer, utilities, roads, and waste management are all critical for a functioning healthy municipality.

### WATER SERVICES

|   |                     |
|---|---------------------|
| <b>Provider</b>   | Village of Montrose |
| <b>Average per capita demand</b>                        | N/A *               |
| <b>Annual residential water rate (2021)<sup>8</sup></b> | \$366.97            |

\* The average per capita daily demand for BC is 503 liters (2017)<sup>9</sup>

### SEWER SERVICES

|  |                                |
|--|--------------------------------|
| <b>Provider</b>  | Village of Montrose            |
| <b>Type of treatment</b>   | Secondary                      |
| <b>Annual sewer flat rate (2021) (residential)<sup>8</sup></b>                         | \$473.47                       |
| <b>Annual sewer flat rate (2021) (industrial/commercial/institutional)<sup>8</sup></b> | <a href="#">varies by type</a> |

### SERVICE PROVIDERS

|  |  |
|--|--|
| <b>Electric power<sup>10</sup></b>     | FortisBC   |
| <b>Natural gas<sup>10</sup></b>        | FortisBC   |
| <b>Telecommunications<sup>11</sup></b> | Telus, Xplornet, Bell, Rogers, Shaw, Columbia Wireless, Columbia Basin Broadband Corporation |

### LANDFILL & WASTE MANAGEMENT

|  |  |
|--|--|
| <b>Landfill location(s)<sup>12</sup></b>   | McKelvey Creek Regional Landfill       |
| <b>Regional District municipal solid waste disposal rate (2018)<sup>13</sup></b> | 593 kg/person/year*                    |
| <b>Type of service<sup>14</sup></b>  | Curbside garbage and recycling pick-up |

\* For comparison, average per capita waste disposal rate for BC is 505 kg/person/year (2018)<sup>15</sup>

## TRAFFIC VOLUMES

Traffic volume data are taken from traffic count stations within, or routes that directly enter, the municipality. Permanent count stations are reported when available. When permanent count stations are not available, numbers from short count stations are reported.<sup>vii,16</sup>

| Station location   | Annual Average       | Annual Average       | Monthly Average | Monthly Average |

## BC TRANSIT

Montrose is serviced by BC Transit's West Kootenay Transit System. This system includes 31 fixed routes, extending from Edgewood and Nakusp, to Trail and Rossland in the south-west, and Kaslo and Argenta in the north-east. Three Health Connections routes are included which provide transportation to non-emergency medical appointments: Salmo-Nelson via Ymir, Nakusp-Nelson, and Kaslo-Nelson. Two Paratransit services provide flexible service to smaller communities around Nakusp and Kaslo. There are also three handyDART regions which assist people with permanent or temporary disabilities. For more information on how Montrose is serviced by the BC transit system, visit <https://www.bctransit.com/west-kootenay/home>.

<sup>vii</sup> Traffic volumes are monitored continuously at permanent count stations, and over a minimum of 48-hour period every three years at short count stations.

# Housing

Housing stock, diversity, availability, and costs are an important basic foundation of functioning and affordable communities. Several indicators related to housing are included in this community profile.

## DWELLING CHARACTERISTICS

| Dwellings by Structure <sup>3</sup>                   | Montrose<br>(2016) | Kootenay Boundary<br>(2016) | British Columbia<br>(2016) |
|---|--------------------|-----------------------------|----------------------------|

<sup>viii</sup> Assessed value as of the July 1 of the previous year. Ex: 2020 assessed value as of July 1, 2019.

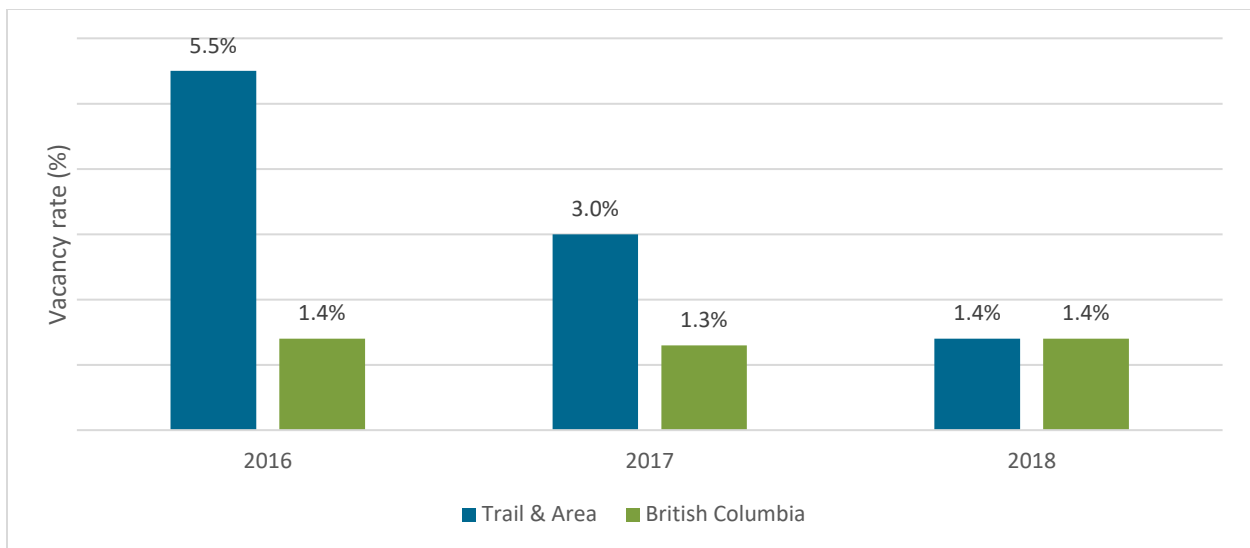

## HOUSING AFFORDABILITY

Housing is considered unaffordable when more than 30% of a household's income is spent on shelter costs. Shelter costs include electricity, oil, gas, wood, or other fuels, water and other municipal services, mortgage payments, property taxes, condominium fees, and rent.<sup>ix, 3</sup>

## VACANCY RATES

Vacancy rates are an important indicator of the availability of affordable housing. A balanced vacancy rate is 3%.<sup>18, x</sup>

<sup>ix</sup> Please see **Appendix A-2** for limitations of Statistics Canada's shelter-cost-to-income ratio calculations.

<sup>x</sup> CMHC is no longer collecting data for small municipalities; current data are only available for Nelson and Cranbrook.

# Income

Income is a substantial determinant of personal well-being and income levels reflect economic opportunity.

## LOW INCOME MEASURE

The Low Income Measure (LIM) is a commonly used, internationally comparable measure of low income. The LIM threshold is 50% of median national adjusted after tax-income, where 'adjusted' means household size is taken into account. A person is considered to be in low income when their after-tax income is below the [LIM threshold](#) for their household size.<sup>xii,22</sup>

The table and chart below provide a comparison by age bracket and year-to-year total population of persons with low income in Montrose, regional district, and BC.<sup>23,24,25,26,27</sup>

| Percent of Individuals with Low Income | Montrose (2018) | Kootenay Boundary (2018) | British Columbia (2018) |
|--|-----------------|--------------------------|-------------------------|
| <b>0-17 years old</b>                  | 13.0%           | 17.7%                    | 18.5%                   |
| <b>18-64 years old</b>                 | 9.0%            | 16.4%                    | 18.0%                   |
| <b>65+ years old</b>                   | x               | 13.2%                    | 18.2%                   |
| <b>All Ages</b>                        | 8.7%            | 15.8%                    | 18.1%                   |

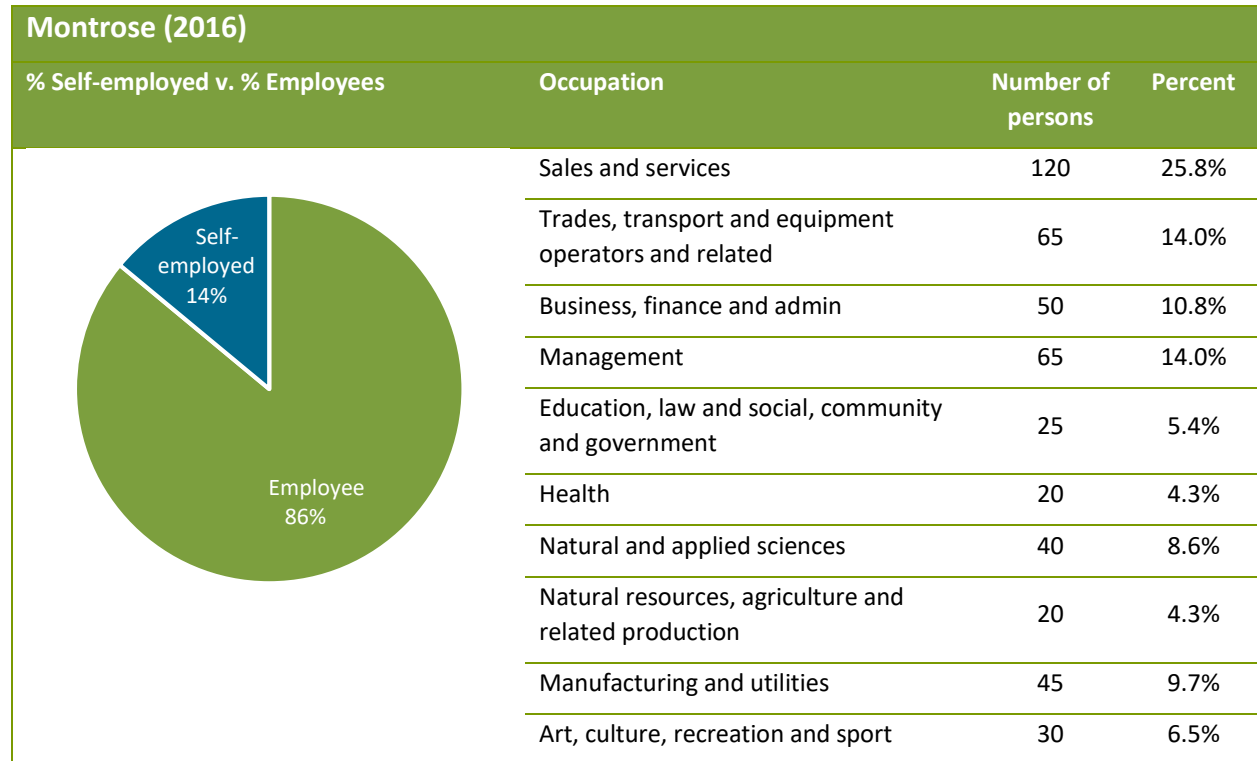

<sup>xii</sup> In 2018, Statistics Canada introduced a new methodology for calculating the LIM threshold, which allows for individual economic well-being to be analyzed (in comparison, previous calculations considered the entire household as a single unit with the assumption of an equitable distribution of resources).<sup>22</sup> Data represented here uses the new methodology, and for that reason, cannot be compared with previous State of the Basin analyses of Low Income Measure.

# Labour Force

## CLASS OF WORKER & OCCUPATIONS

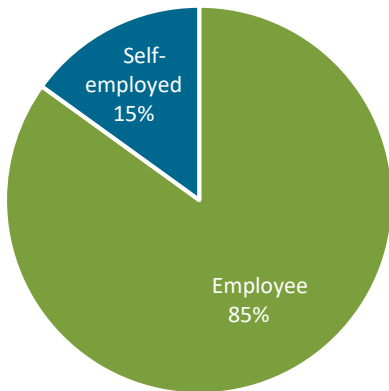

This indicator gives an overview of the make-up of the local workforce and industries.<sup>3</sup> The pie charts show the percentage of the employed labour force who are self-employed versus those who are employed by others. The tables provide numbers and percentages of the labour force in specific occupations for Montrose, the regional district, and BC.<sup>xiii</sup>

<sup>xiii</sup> The labour force includes persons aged 15 and older, employed or unemployed.<sup>28</sup> Occupation is determined by the kind of work done and descriptions of the main activities in the job.<sup>29</sup>

## Kootenay Boundary (2016)

% Self-employed v. % Employees

Occupation

Number of persons

## UNEMPLOYMENT

Unemployment rates are a strong indicator of economic health. Unemployment rates based on the 2016 Census are shown.<sup>3</sup> [Labour Force Survey](#) data at the economic development region level are updated more frequently and can be found in the State of the Basin [Unemployment indicator](#).

| Unemployment Rate | Montrose | Kootenay Boundary | British Columbia |
|-------------------|----------|-------------------|------------------|
|                   | (2016)   | (2016)            | (2016)           |
| <b>Total</b>      | 4.3%     | 7.9%              | 6.7%             |
| <b>Male</b>       | 7.8%     | 8.7%              | 7.1%             |
| <b>Female</b>     | 4.8%     | 6.9%              | 6.3%             |

<sup>xiv</sup> "Usual place" means working at a specific address and reporting to the same workplace location at the beginning of each shift.<sup>30</sup>

<sup>xv</sup> Total used in calculations is the employed labour force aged 15 years and over in private households with a usual place of work or no fixed workplace.<sup>31</sup>

## LABOUR FORCE REPLACEMENT RATE

The Labour Force Replacement Rate is a measure of the number of people who will be entering vs. leaving the workforce in the next 15 years. For the purpose of this measurement, those considered to be entering the workforce are members of the population aged 0-14, and those leaving are those aged 50-64. A rate of 1.0 means the child and retiree populations are the same. A rate of less than 1.0 means an area is likely unable to maintain the current labour force with local replacement workers.<sup>3</sup>

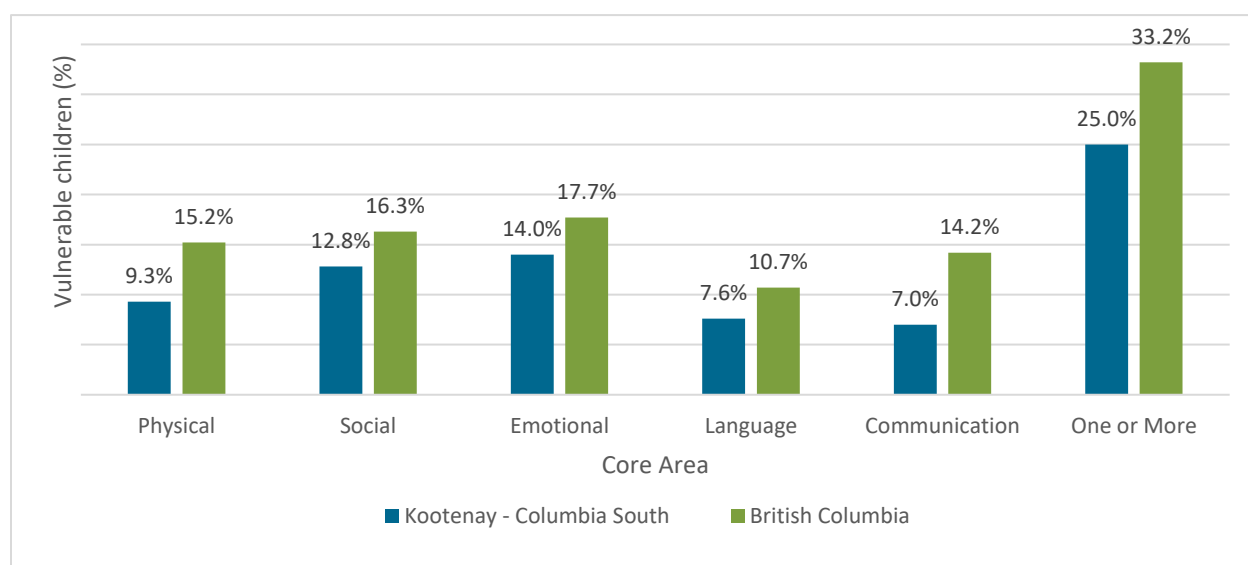

|                                      | Montrose<br>(2016) | Kootenay Boundary<br>(2016) | British Columbia<br>(2016) |
|--------------------------------------|--------------------|-----------------------------|----------------------------|
| <b>Labour Force Replacement Rate</b> | 0.48               | 0.52                        | 0.67                       |

## Education

### EARLY DEVELOPMENT INSTRUMENT

The early years are crucial in influencing a range of health and social outcomes. Research shows that many challenges in adults, including mental health and criminality, have their roots in early childhood. The Early Development Instrument (EDI) assesses the developmental readiness of children in five core areas. These are: physical health and well-being, social competence, emotional maturity, language and cognitive development, and communication skills and general knowledge.<sup>xvi</sup> The EDI is used to assess the percentages of vulnerable children in each core area. Children are categorized as “vulnerable” when it is believed that they will need additional support in order to avoid future challenges in school and society. Data are available at the school district or neighbourhood level.

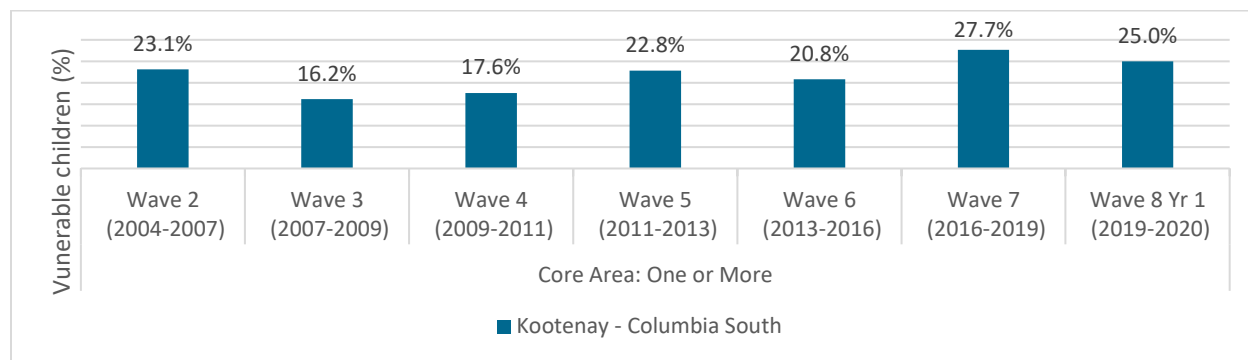

The chart below shows the percentage of children vulnerable in each core area, as well as the percentage of children vulnerable in one or more core areas, for the Kootenay-Columbia South neighbourhood.<sup>xvii</sup> Percentages for the province as a whole are shown for comparison. These data are from the most recent wave (Wave 8) of data collection, which took place in 2019/20.<sup>32</sup>

<sup>xvi</sup> For more information on what is measured within each core area, see **Appendix A-3**.

<sup>xvii</sup> The Kootenay-Columbia South neighbourhood covers the Village of Montrose.

The chart below shows the trend over EDI collection periods for the Kootenay-Columbia South neighbourhood.

## PUBLIC SCHOOL ENROLLMENT

Montrose falls within the Kootenay- Columbia School District (#20).<sup>xviii</sup> Student enrollment measures the number of all school-age persons and adults who are enrolled in public schools and working towards high school graduation. Enrollment trends provide information about changes in the school-age population and is valuable for forecasting and planning.<sup>xix 33</sup>

| Kootenay Columbia (SD 20)                     | 2016/17 | 2017/18 | 2018/19 | 2019/20 | 2020/21 |
|---|---------|---------|---------|---------|---------|
| <b>Total student enrollment</b>               | 3777    | 3852    | 3947    | 3987    | 3895    |
| <b>Elementary student enrollment</b>          | 2266    | 2328    | 2388    | 2432    | 2374    |
| <b>Secondary school enrollment</b>            | 1511    | 1524    | 1559    | 1555    | 1521    |
| <b>Indigenous students</b>                    | 620     | 638     | 640     | 655     | Mask    |
| <b>English language learners<sup>34</sup></b> | 16      | 17      | Mask    | 18      | Mask    |
| <b>French immersion<sup>34</sup></b>          | 315     | 352     | 390     | 406     | Mask    |
| <b>Non-residents<sup>34</sup></b>             | Mask    | 14      | 15      | Mask    | Mask    |

\* Differences between total and elementary and secondary enrollments are due to a small number of enrolled adults

## HIGH SCHOOL COMPLETION

High school completion rates indicate how successful our families, schools, and communities are in supporting youth in achieving graduation. This indicator measures the proportion of students who graduate high school within six years of the first time they enroll in grade 8.<sup>35</sup> High school graduation is generally a minimum education level for most employment and a foundation for positive workplace conditions and future employment success.

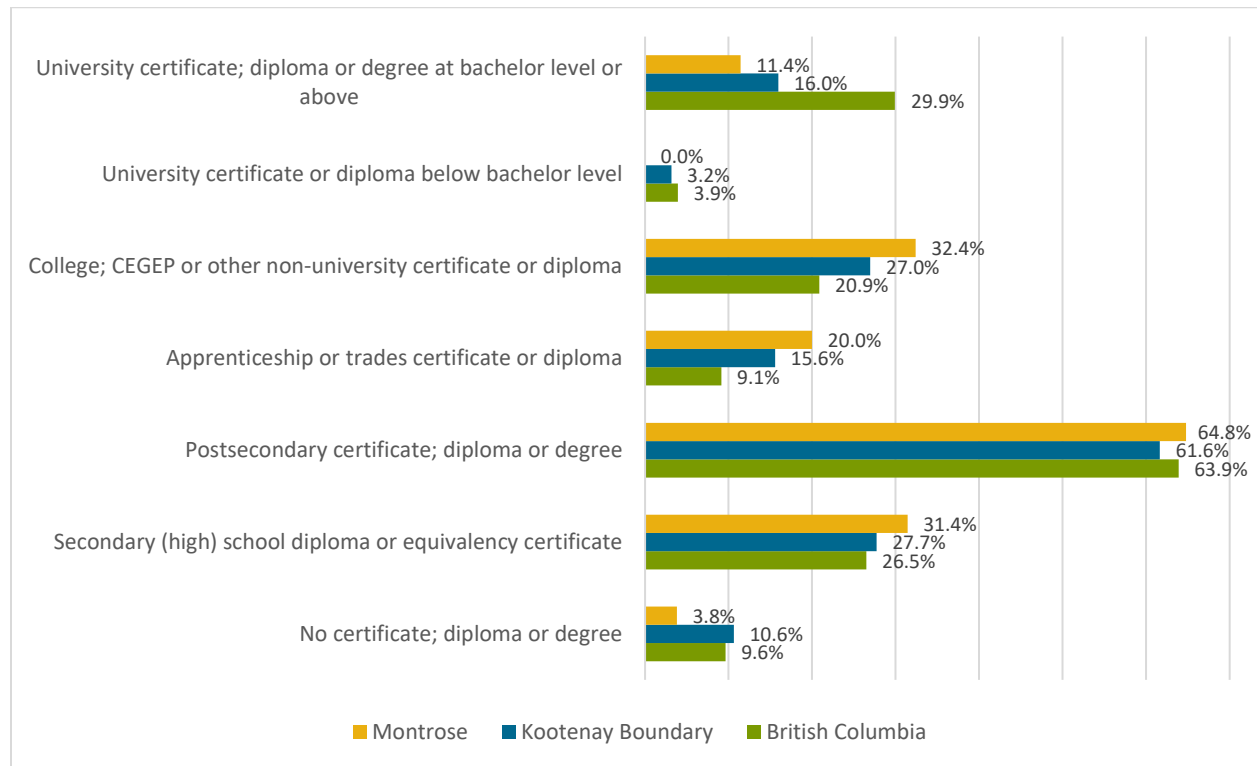

|                                  | 2015/2016 | 2016/2017 | 2017/2018 | 2018/2019 | 2019/2020 |
|----------------------------------|-----------|-----------|-----------|-----------|-----------|
| <b>Kootenay Columbia (SD 20)</b> | 88.1%     | 93.4%     | 87.5%     | 90.4%     | 90.7%     |
| <b>All BC Public Schools</b>     | 86.8%     | 87.3%     | 88.5%     | 88.8%     | 89.6%     |

<sup>xviii</sup>The Kootenay-Columbia school district covers multiple municipalities and electoral areas, therefore numbers reported reflect the full school district and are not limited to Montrose.

<sup>xix</sup> Due to revisions in 2020 to the Ministry of Education's Protection of Personal Information when Reporting on Small Populations policy, data masking occurs when any cells have fewer than 10 observations, even if the summed total for a category exceeds 10. This impacts reporting enrollment past the 2019/20 school year on categories with lower numbers such as French immersion.

## EDUCATIONAL ATTAINMENT

Education levels are highly correlated with social determinants of health such as income, employment security, and socio-economic opportunity. This indicator measures the highest level of attainment of people aged 25 to 64 years (2016).<sup>3</sup>

## Quality of Life & Civic Engagement

### LIFE EXPECTANCY

Life expectancy is a widely used indicator of population health. This indicator reports on the number of years a person is expected to live based on mortality statistics for a Local Health Area (LHA).<sup>36</sup> Montrose is covered by the Trail Local Health Area.

|                                | Life Expectancy<br>2015-2019 Average |
|--------------------------------|--------------------------------------|
| <b>Trail Local Health Area</b> | 80.2                                 |
| <b>British Columbia</b>        | 82.7                                 |

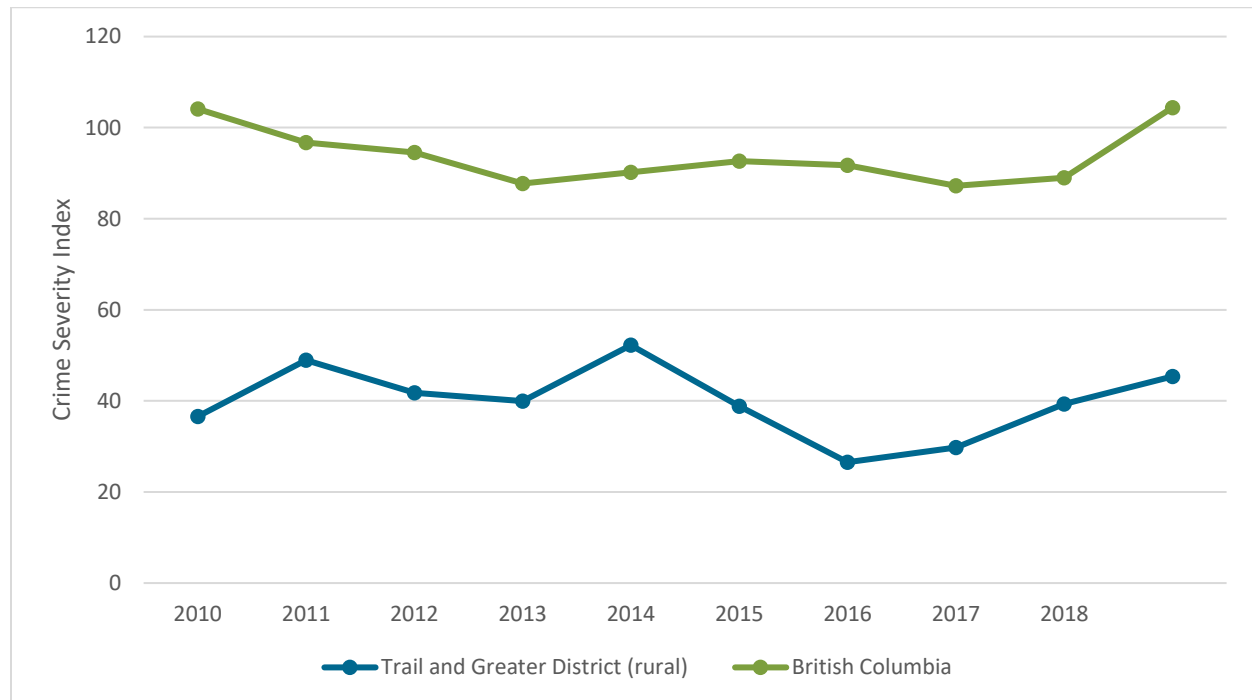

### VOTER TURNOUT

Voter turnout is an indicator of resident involvement in politics and can be seen as a reflection of civic mindedness and citizen engagement. This indicator measures the percentage of eligible voters who voted in local elections.<sup>37</sup>

|  | 2008  | 2011  | 2014  | 2018  |
|--|-------|-------|-------|-------|
| <b>Montrose</b>                        | 36.7% | 42.7% | 40.0% | 49.4% |
| <b>Columbia Basin-Boundary average</b> | 41.5% | 36.7% | 44.5% | 44.0% |

## CRIME SEVERITY INDEX

Crime rates are a common indicator of public safety. The police reported Crime Severity Index (CSI)<sup>38</sup> includes all Criminal Code violations including traffic, as well as drug violations and all Federal Statutes. It measures the volume and severity of police-reported crime.<sup>xx</sup>

## CHARITABLE DONATIONS

Charitable donations play a role in improving well-being by providing support to a variety of initiatives. Charitable giving reflects a capacity to give, and is tied to the economy, in that people may give more or less depending on their financial situation and the state of the economy.<sup>39</sup>

|  | Montrose<br>(2018) | Kootenay Boundary<br>(2018) | British Columbia<br>(2018) | Canada<br>(2018) |
|--|--------------------|-----------------------------|----------------------------|------------------|
| <b>Total # of tax-filers</b>               | 1,010              | 24,510                      | 3,702,970                  | 27,394,970       |
| <b>Total charitable donors</b>             | 270                | 4,870                       | 683,150                    | 5,324,280        |
| <b>Percent charitable donors</b>           | 26.7%              | 19.9%                       | 18.4%                      | 19.4%            |
| <b>Total charitable donations (\$'000)</b> | \$225              | \$5,865                     | \$1,758,810                | \$9,952,505      |
| <b>Median donation</b>                     | \$120              | \$260                       | \$470                      | \$310            |
| <b>Median income</b>                       | \$64,580           | \$58,260                    | \$62,360                   | \$61,940         |

<sup>xx</sup> Due to the small population in rural communities, the CSI can change dramatically from year to year due to a small amount of crime. Data for police services with populations less than 5,000 should be used with caution.

## PUBLIC LIBRARY USAGE

Libraries play an important role in the vibrancy of a community, as libraries are often a gathering place for residents where a diversity of programs and services are offered. Library statistics are useful for providing an indication of the health and capacity of these facilities in serving community needs and interests.<sup>40</sup>

|   | Beaver Valley Public Library (2019) | Average all libraries in Columbia Basin-Boundary (2019)* |
|---|-------------------------------------|--|
| <b>Population served</b>                                  | 4,807                               | 7,489  |
| <b>Total active cardholders as % of population served</b> | 18.6%                               | 35.9%  |
| <b>Attendance at children's and young adult programs</b>  | 1,495                               | 3,004  |
| <b>Total full-time equivalent employees (FTE)</b>         | 1.0                                 | 3.8  |
| <b>Volunteer hours worked</b>                             | 270.0                               | 1144.2   |
| <b>Number of in-person visits</b>                         | 14,950                              | 47,324   |
| <b>Total visits per capita</b>                            | 4.8                                 | 9.9  |
| <b>Average hours open per week</b>                        | 46.4                                | 40.3   |
| <b>Total local government support</b>                     | 201,862                             | 265,314  |
| <b>Local government support per capita</b>                | 42.0                                | 36.4   |
| <b>Total other revenue</b>                                | 5,357                               | 48,960   |

\*Columbia Basin-Boundary averages do not include the Golden or Revelstoke libraries, as these branches are part of the Okanagan Regional Library and comprehensive data by branch are not available.

# Business

## BUSINESS COUNTS

Trends in the number of businesses within a region is an indicator of economic health.<sup>41</sup> In the chart below, “total” refers to total number of businesses both with and without employees, and “with employees” refers only to those businesses that have employees other than the owner.

| 2010-2012 Change      |       |
|-----------------------|-------|
| <b>Total</b>          | 12.7% |
| <b>With employees</b> | 12.0% |

| 2015-2020 Change      |     |
|-----------------------|-----|
| <b>Total</b>          | N/A |
| <b>With employees</b> | N/A |

| 2019-2020 Change      |     |
|-----------------------|-----|
| <b>Total</b>          | N/A |
| <b>With employees</b> | N/A |

## BUSINESS FORMATIONS

The number of business incorporations is an indicator of the overall business climate, providing a sense of an expanding or contracting economy.<sup>42</sup>

| Year        | Montrose | Kootenay Boundary | British Columbia |
|-------------|----------|-------------------|------------------|
| <b>2016</b> | 0        | 99                | 43,556           |
| <b>2017</b> | 0        | 96                | 46,247           |
| <b>2018</b> | 1        | 97                | 46,245           |
| <b>2019</b> | 0        | 69                | 44,657           |
| <b>2020</b> | 1        | 101               | 47,789           |

## BUILDING PERMITS

This indicator measures the building permit construction value issued annually by a defined region. Building permits are a well-accepted indicator of economic performance. Values below are reported in thousands.<sup>xxi</sup>

| Year | Montrose <sup>43,44, xxii</sup><br>(\$'000) | Kootenay Boundary <sup>45</sup><br>(\$'000) | British Columbia <sup>43</sup><br>(\$'000) |
|------|---|---|--|
| 2015 | \$331                                       | \$57,623                                    | \$12,971,649                               |
| 2016 | \$636                                       | \$37,742                                    | \$12,492,196                               |
| 2017 | \$1,353                                     | \$47,285                                    | \$14,668,692                               |
| 2018 | \$876                                       | \$58,36657,840                              | \$18,361,550                               |
| 2019 | \$122                                       | \$49,561                                    | \$23,044,653                               |

## VISITOR CENTRE STATISTICS

Visitor Centre Statistics are a common indicator of tourism, an economic sector for many regions. Numbers for the Trail Visitor Center have been provided below.<sup>46</sup>

| Year | Total Visitors<br>Trail Visitor Centre | Change from previous year<br>Trail | Change for all visitor centres in<br>BC |
|------|--|------------------------------------|---|
| 2016 | 3,856                                  | 20.8%                              | 0.6%                                    |
| 2017 | 3,651                                  | -5.3%                              | -2.6%                                   |
| 2018 | 4,330                                  | 18.6%                              | -8.2%                                   |
| 2019 | 3,173                                  | -26.7%                             | 10.6%                                   |
| 2020 | 1,623                                  | -48.8%                             | -70.1%                                  |

<sup>xxi</sup> Building permit data source has shifted from [BC Stats](#) to [Local Government Statistics](#) based on data availability, so caution should be used when comparing results from this community profile to previous profiles. Regional district totals do not include municipalities with their own building inspection services. For the Regional District of Kootenay Boundary, these municipalities are: Trail, Grand Forks and Rossland.

<sup>xxii</sup> Note: Two different datasets were used for Montrose data. Data for 2016, 2018 and 2019 are from BC Local Government Statistics, while 2015 and 2017 came directly from the Regional District of Kootenay Boundary. Use caution when comparing year-over-year, as reporting methods may not be the exact same.

# Local Government

Local governments are required to submit data annually to the BC Ministry of Municipal Affairs and Housing, including annual reports and financial statements. Municipal revenues and expenses and taxes on a representative house<sup>xxiii</sup> provide an indication of a local government's capacity, financial needs and priorities, and costs to residents.

## MUNICIPAL REVENUE AND EXPENSES

| Municipal Revenue <sup>47</sup>                      | Montrose (2019)    | Percent of Total Revenue |
|--|--------------------|--------------------------|
| <b>Total Own Purpose Taxation and Grants in Lieu</b> | \$517,470          | 31.4%                    |
| <b>Sale of Services</b>                              | \$417,436          | 25.4%                    |
| <b>Transfers from Federal Governments</b>            | \$0                | 0.0%                     |
| <b>Transfers from Provincial Governments</b>         | \$421,867          | 25.6%                    |
| <b>Transfers from Regional and Other Governments</b> | \$257,392          | 15.6%                    |
| <b>Investment Income</b>                             | \$32,118           | 2.0%                     |
| <b>Income from Government Business Enterprise</b>    | \$0                | 0.0%                     |
| <b>Developer Contributions</b>                       | \$0                | 0.0%                     |
| <b>Disposition of Assets</b>                         | \$0                | 0.0%                     |
| <b>Other Revenue</b>                                 | \$0                | 0.0%                     |
| <b>Total Revenue</b>                                 | <b>\$1,646,283</b> |                          |

| Municipal Expenses <sup>48</sup>            | Montrose (2019)    | Percent of Total Expenses |
|---|--------------------|---------------------------|
| <b>General Government</b>                   | \$459,566          | 33.2%                     |
| <b>Protective Services</b>                  | \$33,952           | 2.5%                      |
| <b>Solid Waste Management and Recycling</b> | \$23,463           | 1.7%                      |

| <b>Amortization</b>                         | \$315,056          | 22.8%                     |
| <b>Other Adjustments</b>                    | \$0                | 0.0%                      |
| <b>Total Expenses</b>                       | <b>\$1,382,635</b> |                           |

<sup>xxiii</sup> A representative house is based on the assessment and occurrence of single-family residential properties, and does not include vacant properties, multi-family, strata, etc.

## TAXES & CHARGES ON A REPRESENTATIVE HOUSE

| Representative House <sup>49</sup>           | Montrose (2020) |
|--|-----------------|
| House value                                  | \$293,193       |
| School                                       | \$685           |
| General Municipal Total                      | \$498           |
| Regional District                            | \$930           |
| Hospital                                     | \$73            |
| BCA, MFA, and other                          | \$113           |
| Total Residential Variable Rate Taxes        | \$2,299         |
| Total Residential Parcel Taxes               | \$576           |
| Total Residential User Fees                  | \$800           |
| Total Residential Property Taxes and Charges | \$3,675         |

# Environment

The environment is a foundation for many aspects of well-being. Parks and protected areas help to safeguard wild spaces and species and provide opportunity for residents and visitors to recreate and connect with nature. Weather and climate conditions and trends help us understand the context in which a community operates, and climate projections can help with forecasting and adaptive planning.

## PARKS & PROTECTED AREAS

Montrose has 7 provincial parks and protected areas within a 40-kilometer radius of the municipality. It also has at least 3 local parks and greenspaces which intersect its boundaries.<sup>50</sup>

| Montrose                                    |  |  |
|---|--|--|
| <b>Provincial parks and protected areas</b> | Beaver Creek Park<br>Champion Lakes Park<br>Erie Creek Park<br>King George Vi Park | Nancy Greene Park<br>Stagleap Park<br>Syringa Park |
| <b>Local greenspaces</b>                    | Frontier Park<br>Montrose Park   | Viewmont Park                                      |

## WEATHER & CLIMATE

Weather and climate data are based on the Government of Canada’s 1981-2010 Climate Normals and Averages.<sup>xxiv</sup> The numbers presented below are from the Warfield weather station.<sup>52</sup>

|                                      | January (Year of Occurrence) | July (Year of Occurrence) |
|--------------------------------------|------------------------------|---------------------------|
| <b>Daily average (°C)</b>            | -1.8                         | 20.4                      |
| <b>Daily maximum (°C)</b>            | 0.5                          | 27.8                      |
| <b>Daily minimum (°C)</b>            | -4                           | 12.9                      |
| <b>Extreme maximum (°C)</b>          | 11.1 (1953)                  | 41.1 (1934)               |
| <b>Extreme minimum (°C)</b>          | -27.8 (1950)                 | 0.6 (1976)                |
| <b>Rainfall monthly average (mm)</b> | 27.8                         | 48.2                      |
| <b>Snowfall monthly average (cm)</b> | 50.6                         | 0                         |
| <b>Extreme daily rainfall (mm)</b>   | 27.2 (1983)                  | 44.2 (1989)               |
| <b>Extreme daily snowfall (cm)</b>   | 34.3 (1968)                  | 0                         |
| <b>Extreme snow depth (cm)</b>       | 75 (1997)                    | 0                         |

<sup>xxiv</sup> The terms “climate normals” and “climate averages” are interchangeable, and refer to numbers based on observed climate values for a specific location over a specific time frame.<sup>51</sup>

## FROST-FREE DATES

Frost-free dates are based on data from the Warfield weather station.<sup>52xxv</sup>

|                         | Average Date of Last Spring Frost | Average Date of First Fall Frost | Average Length of Frost-Free Period |
|-------------------------|-----------------------------------|----------------------------------|-------------------------------------|
| <b>Frost-free dates</b> | April 26                          | October 12                       | 169 Days                            |

## MODELED CLIMATE DATA – HISTORY & PROJECTIONS

Climate data were modeled across the Columbia Basin-Boundary on a scale consisting of a 10x10 km grid. The figures below show median values from the results of 12 climate models for each time period and for low carbon and high carbon emission scenarios for the grid closest to Montrose.<sup>54</sup> Low carbon scenarios assume global greenhouse gas emissions will be drastically reduced from current levels, while high carbon scenarios assume greenhouse gas emissions will continue increasing at current rates. For more area-specific climate data, visit the [Columbia Basin Climate Source](#) website.

| Variable                          | Recent Past   | Near Future   |             | Far Future    |             |
|-----------------------------------|---------------|---------------|-------------|---------------|-------------|
|                                   | (1951 - 1980) | (2021 - 2050) |             | (2051 - 2080) |             |
|                                   |               | Low Carbon    | High Carbon | Low Carbon    | High Carbon |
| <b>Annual mean temperature</b>    | 8.5 °C        | 10.3 °C       | 10.8 °C     | 11.4 °C       | 12.6 °C     |
| <b>Annual total precipitation</b> | 575 mm        | 606 mm        | 610 mm      | 612 mm        | 621 mm      |

<sup>xxv</sup> Caution should be used when comparing frost free dates between community profiles. Cranbrook, Radium Hot Springs, Invermere, Fernie, Revelstoke, and Valemount data is taken from Climate Atlas of Canada<sup>53</sup> which calculates frost free dates based on data from 1976-2005. All other profiles use data from The Government of Canada climate normals and averages<sup>52</sup> which calculate frost free dates based on data from 1981-2010.

---

## Gaps and Further Research

During the compilation of data for these community profiles, a number of gaps and opportunities for further research were identified. These are discussed below.

### VACANCY RATES

These results come from the Canada Mortgage and Housing Corporation's (CMHC) annual Rental Market Surveys. As some communities have very small rental markets, information for some municipalities is suppressed for confidentiality reasons. CMHC is no longer collecting data for small municipalities; therefore, current data are only available for Nelson and Cranbrook.

### BUSINESS COUNTS

Limited business count data is available for Montrose in the dataset.

### 2021 CENSUS

The 2021 Census of Population occurs in May 2021. The information collected during the census is vital for rural community development and planning. Data is collected about demographics, and well as social and economic well-being.<sup>55</sup> Beginning May 3, 2021, Canadians can complete the census questionnaire online, and doing so follows COVID-19 restrictions while fulfilling the obligation of completing the census.

*The Columbia Basin Rural Development Institute acknowledges the support of Columbia Basin Trust*

State of the Basin findings have been developed by a team of qualified researchers. A variety of data sets were used to develop indicator findings, and as such, community groupings may vary from indicator to indicator. In some cases, community-specific data are not available. State of the Basin research should not be considered to be a complete analysis, and we make no warranty as to the quality, accuracy or completeness of the data. The Columbia Basin Rural Development Institute, Selkirk College and Columbia Basin Trust will not be liable for any direct or indirect loss resulting from the use of or reliance on these data.

# Appendix A: Data Notes

## 1. RANDOM ROUNDING IN CENSUS DATA

Statistics Canada uses random rounding in census data to ensure that the confidentiality of census respondents is protected. Values within census datasets (including the 2016 census profiles, which are used frequently as a data source within this report) are rounded up or down to a multiple of 5 or 10. Each individual value is rounded, and therefore the total value for the category may not add up to the sum of the individual values. Random rounding occurs each time data are pulled from the Statistics Canada website. Values in the same data set accessed at different times may therefore differ slightly.<sup>56</sup>

## 2. SHELTER-COST-TO-INCOME RATIO CALCULATION

Data gathered by Statistics Canada for the shelter-cost-to-income ratio are subject to the following limitations:

- Some households are excluded from the calculation (e.g. those living in band housing, on an agricultural operation operated by a household-member, and households with negative or zero household income)
- Differences in the reference periods for shelter cost and income data may result in relatively high shelter-cost-to-income-ratios for some households. This is because shelter cost data were gathered in 2016, while the reference period for income data is from 2015. Furthermore, reported 2015 household income may only represent income for part of the year for some households.<sup>57</sup>

## 3. EARLY DEVELOPMENT INSTRUMENT SCALES

The Early Development Instrument (EDI) is based on questionnaires filled out by kindergarten teachers. The questionnaires measure five core areas that have been identified as predictors of “adult health, education and social outcomes.” See the table below for example questions from the questionnaire.<sup>58</sup> For more information on how these data are collected, visit <http://earlylearning.ubc.ca/edi/>.

| Core Area   | Example Questions  |
|---|--|
| <b>Physical health and well-being</b>             | “Can the child hold a pencil, pen or crayons? Is the child on time for school each day?”   |
| <b>Language and cognitive development</b>         | “Is the child interested in reading and writing? Can the child count and recognize numbers?”                                     |
| <b>Social competence</b>                          | “Does the child share with others? Is the child self-confident? Will he/she invite bystanders to join in a game?”                |
| <b>Emotional maturity</b>                         | “Is the child able to concentrate? Is the child aggressive or angry? Is the child impulsive (does he/she act without thinking)?” |
| <b>Communication skills and general knowledge</b> | “Can the child tell a short story? Can the child communicate with adults and children?”  |
